The accommodation question and huge financial commitment stands in the way of opening Kannada Parallel classes in all the forms at once and so it is suggested that parallel classes may be opened gradually i.e. in one class every year. This has also been approved by the District Educational Officer, South Kanara and also by the local people. A copy of letter No.3752 B1/55 dated 5-5-55 of the District Educational Officer recommending to open Kannada Parallel classes gradually is enclosed herewith for favour of perusal. To begin with, Kannada medium classes may be opened in I form during 1955-56. The additional staff of only one Secondary grade teacher (Kannada trained) and a non-recurring expenditure of Rs.800/- will be sufficient for the purpose. The financial implication will be as follows:

I. Recurring.

Pay of one Secondary grade teachers at Rs.45/-	Rs.540-0-0
D.A. -do- at Rs.22/-	264-0-0

p.t.o.

The present building which the school Committee is constructing will be hardly sufficient to accommodate the existing classes. Until another building is provided classes will have to be held on the verandah of the building under construction. This can be managed with some difficulty. It will be a great disappointment to the Kanrada speaking people if their request is denied. I therefore request that Government may be pleased to sanction following.

1. Introducing of Kannada Medium classes in the fisheries High School at Bekal and to begin with to open I form during 1955-56.

2. The employment of an additional Secondary grade teacher on Rs.45-3-60-2-90 per month for a period of one year from date of employment.

3. To incur a non recurring expenditure of Rs.800/- towards the supply of furniture and books.

For Director of Industries and Commerce.

In and around Bekal there are 20 Ele.schools (including 2 H.E.schools) within a radius of 5 miles. In 9 of these schools, Kannada is taught and the medium of instruction is also Kannada. The pupils in these schools have to go to Kasaragod if they want to continue their studies inFrom I through Kannada Medium. It is understood that 24 pupils go to Kasaragod for Kannada Education. In the above 9 schools 53 plus 51 pupils study in V Std. on 1-4-55. Hence there is a real necessity for opening of parallel Kannada section in the Bekal fisheries High School in June 1955.

In view of the practical difficultieis of opening parallel classes in all the Forms atonce, it is suggested that aparallel sections may be opened in form I in June 1955. One additional secondary grade teacher trained in Kannada may be appointed in June 1955.

The strength inKannada sections of forms I to III when opened is expected to be about 40.
